

Understanding the Registry

Uploading a Photograph from a Mobile Device

Your photograph is imported directly from your Florida Driver's License or Florida Identification card. If the photograph from your Florida Driver's License or Florida Identification card did not automatically import, please contact your physician and confirm that your Social Security Number and Date of Birth have been entered correctly.

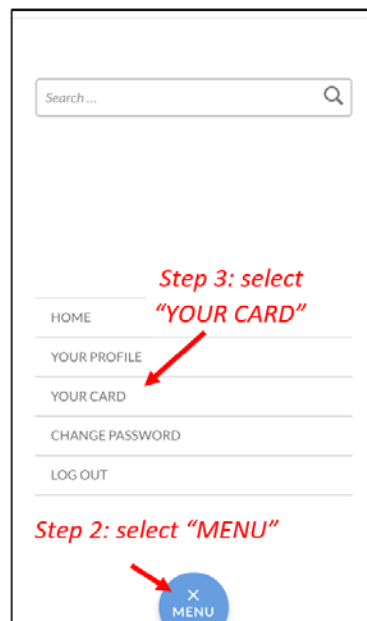

If you do not have a Florida Driver's License or Florida Identification Card, the information below shows you how to upload a full-face passport type photograph from your smartphone or tablet to the Medical Marijuana Use Registry.

*For information on uploading a photo from a desktop or laptop computer, [click here](#).

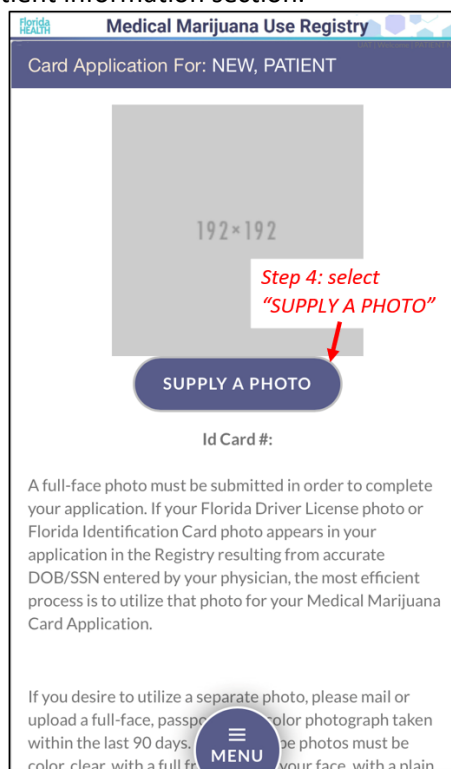

Step 1: Log into the Medical Marijuana Use Registry at <https://mmuregistry.flhealth.gov/>.

Step 2: Click on the "Menu" button at the bottom of the screen.

Step 3: Select "Your Card" from the menu options to view your identification card application.

Step 4: Click "Supply a Photo" in the patient information section.

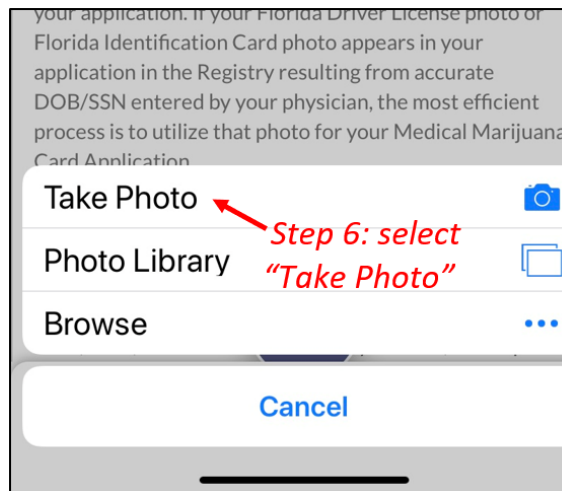

Step 5: Click “Supply my own.”

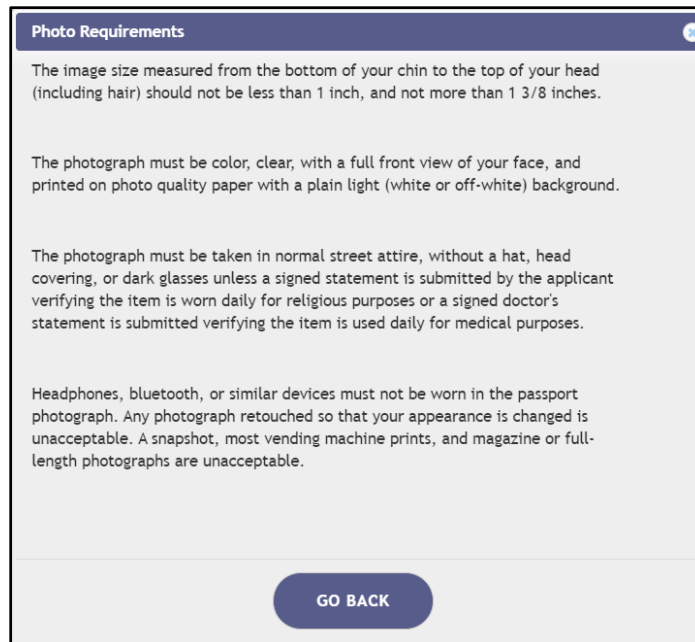

Step 6: Click “Take Photo.”

You can also use an acceptable photo (see requirements below) already in your photo gallery by clicking on “Photo Library,” instead.

Step 7: Take a photograph of yourself, following the requirements for the photo.

Step 8: If the photograph is clear and meets all requirements, click “Use Photo.”

If you need to retake the photograph, click “Retake” and repeat Step 6 and Step 7.

You will be redirected to your online application where you can verify that your photograph was successfully uploaded.
